

FORM D – Written Project Procedures

SV CDC 2024

Please be sure to carefully review this entire document. Failure to do so may lead to an ineligible submission.

**All written projects must be submitted during the upload window
(between 8:00am on Wednesday, December 6th and 5:00pm on Friday, December 8th)**

All projects will be reviewed and judged online prior to the conference. Presentations will take place in-person on-site at the District Career Development Conference. The judge who hears the presentation on-site at the conference may not be the same judge who reviewed the project online prior to the conference. Competitors are welcome to bring a copy of their project with them to use during their presentation as a visual but is not required.

In some limited circumstances a project may need to be printed and judged on-site at the conference. On-site printing will be done by the California DECA Management Team and will only be done in black and white. Requests for printing in color will not be accommodated.

The following projects will have separate score sheets for the online written entry judging and the on-site presentation judging which will then be combined through our usual scoring procedures: EIP, ESB, IMCE, IMCP, and IMCS to facilitate the online submission and judging process.

Key Reminders

- Competitive event selections and team pairings are now finalized based on Chapter registrations
