Interview Situation

INTERVIEW SITUATION

You are to assume the role of candidate for a summer internship at THE CENTENNIAL, a luxury high-rise 1,200 room hotel located in the heart of a major tourist destination. You have submitted your résumé and have been invited in for a personal interview with the director of human resources (judge). This interview will be used to measure your knowledge and understanding of an important aspect of the hospitality/lodging business. The director of human resources (judge) wants to make sure you understand the role that safety plays in the hotel's operation before he/she offers you the internship.

Recently, a small fire broke out in one of the guest rooms on the 27th floor. Fortunately, the fire was quickly extinguished. An investigation revealed the cause of the fire was an exposed electrical outlet that had been missing its cover plate—probably for several weeks.

In the first part of your interview you will explain the need for all employees to follow safety precautions in the day-to-day operation of the hotel. In addition, your presentation must address the remaining performance indicators listed on the first page of this event. Following your explanation, the director of human resources (judge) will ask you to respond to additional questions.

The interview will take place in the office of the human resources director (judge). The director (judge) will begin the interview by greeting you and asking to hear your ideas on hotel safety and reporting noncompliance. After you have provided your explanation and have answered the director's (judge's) questions, the director of human resources (judge) will conclude the interview by thanking you for your presentation.
